Miss Yeamans has been appearing at Floyd's popular concerts, the archits in which are paid for their work—a condition that does not apply to many Sunday concerts, by the bye.

Henry E. Abbey sails for this country Nov. 23, and his fathful people are awaiting his return to settle. The Prodigal Daughter difficulty. As aiready related in these columns, the melodrama calis for an enormous stage, and a search for one that is disengaged has not as yet been successful. By the terms of Mr. Abbey's contract with the London owners of the piece, it must be presented in . . .

The part of the German servant girl in "Squatter Sovereignty," which was written expressly for Miss Ada Lewis, has greatly enhanced the value of the play. Miss Lewis has I giver been abroad. She acquired her German in San Francisco-which is, perhaps, just as good a place in which to learn it, as Berliu or Hanover, although it doesn't sound quite as nice.

"The White Squadron" people have had considerable trouble with their "supers" in the classic city of Brooklyn. They tried to take their New York men with them to that city. There is, however, a great deal or rivalry between New York and Brooklyn supers, and in the City of Churches there was up to the cat, who immediately adopted in the sister city. The fight was really a serious one, but fortunately, "The White Squadron" management came out victors.

"The City Beneath the Sea" is the name of the latest melodrama. It was written by James W. Harkins, ir., author of "The White Squadron," "The Fire Patrol" and "The Midnight Alarm." Mr. Harkins has a great deal to answer for.

E. B. Radcliffe, who started out this season to star in "Buils and Bears," is back in the city again, a wiser, yet a sadder man. He forsook his excellent position at Harrigan's Theatre for this starring tour. His place is now filled. Oh, would-be-stars, ponder well ere you rush to the cruel and unappreciative

Here is a hitherto unpublished criticism of Mrs. Potter's production of Zola's "Therese." It was contributed by an actress: "I saw rotter and Bellew in "Therese." To my mind it is a nightmare in three parts—imbecility, lust and horror. The imbecility is painful to look at; the lust is so unveiled that it is disgusting, and the horror makes one think that they have partshop of some dreadful drug and long for a release from it all.
